VG Standard Cables for Defence

For Ongoing Series and Flexible Call-Offs

Our VG 95218 supply programme for defence applications. Decades of experience, in-house technical expertise and fast, flexible delivery from stock for your VG project.

PORTFOLIO

19 Standard Parts

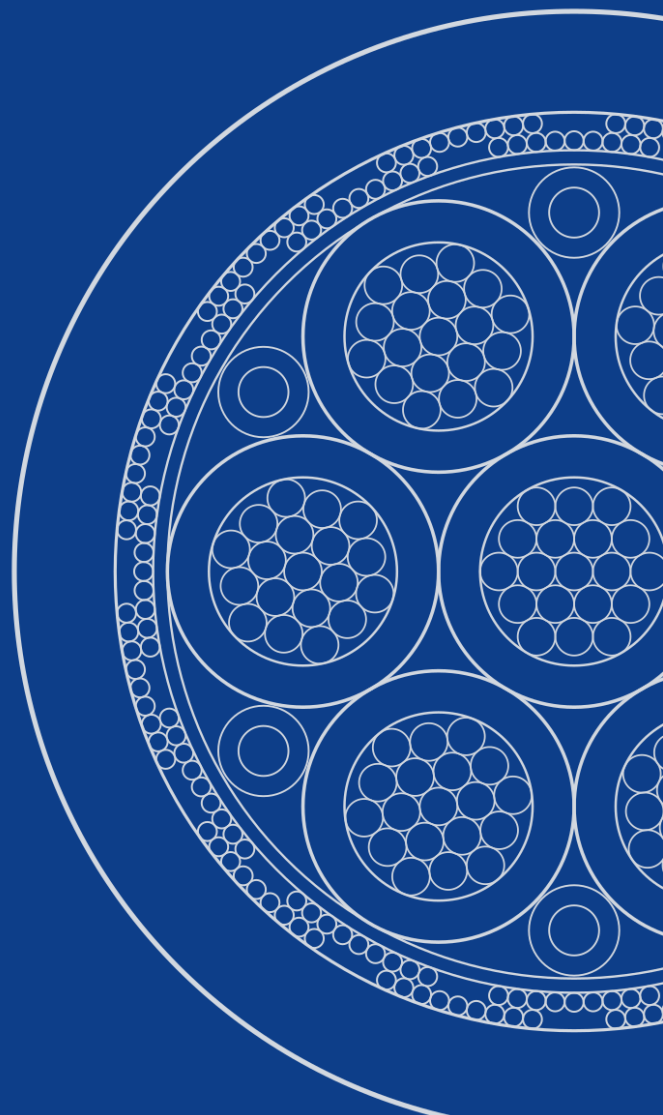

VG 95218-8, -9, -20 to -29, -60 to -66

36 AWG to 400 mm²

Conductor cross-sections in the extended defence range

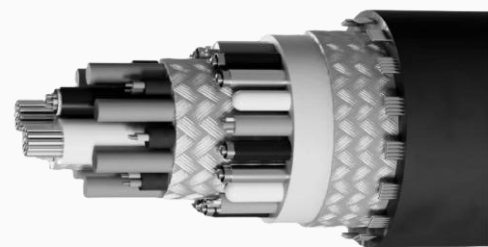

From 100 m

Cut lengths from stock

VG 95218 at a Glance

VG 95218 covers standardised cables and wires for defence applications. The individual parts of the standard differ in construction, screening, flexibility, sheathing and water-tightness, and the type letters identify each specific design.

Part	Construction	Types	Part	Construction	Types
VG 95218-8	Sheaths for cables and wires		VG 95218-28	Multicore, screened and sheathed	A, B, C, D
VG 95218-9	Design of special cables and wires		VG 95218-29	Longitudinally and radially watertight	G, H, K, L
VG 95218-20	Single core	A, B, G, P, R, J	VG 95218-60	Halogen-free, with and without screen	A, B, C
VG 95218-21	Stranded single cores	E, F	VG 95218-61	Halogen-free, lightweight design	A
VG 95218-22	Single core, screened and sheathed	C, G	VG 95218-62	Halogen-free, paired, unscreened pairs	A
VG 95218-23	Multicore, screened and sheathed	C, F	VG 95218-63	Halogen-free, paired, screened pairs	A
VG 95218-24	Single core, sheathed	K	VG 95218-64	Halogen-free, paired, single/double screen	A, B, C
VG 95218-25	Single core, high-flex, sheathed	G	VG 95218-65	Halogen-free, screened elements	A, B, C
VG 95218-26	Single core, high-flex, screened and sheathed	H	VG 95218-66	Halogen-free, in triples, double screen	A
VG 95218-27	Multicore, sheathed	A, B			

Availability for Series and Projects

Our stock is built around the supply of **ongoing defence series programmes**. Among others, we supply programmes for protected wheeled vehicles and mobile air defence systems. Many designs are available **at short notice and in large quantities**.

We source additional VG designs through our partner manufacturers. **Recurring requirements** are matched to your production schedule and held ready for call-off. Send us your requirements list. **You will receive availability and delivery dates without delay.**

Customer-specific designs are also available on request

Technical Matching

We identify part, type and cross-section from your VG number, drawing or specification.

Documentation

Works certificates and full batch traceability are available for every item.

Tailored Logistics

Call-offs to your production schedule and cut lengths from 100 m on drum or reel sizes you specify.
